

EDITORS PICKS

All year round we're trying new treatments, hearing about new products and looking at advances in the aesthetics industry. Here's a selection of our favourites...

Clinical Super 3 Booster

– probably the most potent anti-aging formulation without a prescription.

Beauté Pacifique's patented formulation effectively delivers Vitamin A, renewing the skin's collagen and elastin fibres like no other retail cream. Can effectively reduce wrinkles, rosacea, stretch marks and fights acne, with visible signs of improvement in just five days.

Bio-Cellulose Apple Stem Cell Collagen Mask

– packed with a plethora of cutting edge ingredients, it is the ultimate in state of the art anti-ageing skincare.

Active ingredients include Bio-Cellulose, which contains fibres that are highly compatible with the human body and can deeply penetrate through the inner layers of the skin whilst allowing the skin to breathe. In addition, the mask includes Stem Cells extracted from the Swiss apple Uttwiler Spätlauber. These provide nutrients to nourish and stimulate the skin. They help to repair damaged tissue and delay the signs of ageing. This Stem Cell 'technology' is also combined with Marine Collagen that helps to promote suppleness and elasticity in the skin, making this sumptuous mask feel luxurious on the skin.

ageLOC® Transformation Set

– infuse your skin with the elements of youth.

ageLOC® Transformation delivers unsurpassed anti-ageing benefits and is clinically proven to improve skin in eight significant ways. This complete & comprehensive skin care system cleanses, purifies, renews, moisturises and reveals younger looking skin – for a more youthful and healthier looking you, now and in the future.

Silhouette Soft®

– it is possible for women to recover a regular and natural facial outline.

Silhouette Soft® is a unique treatment enabling two combined actions. First, a discreet and immediate lifting effect – as soon as the suture is applied, the doctor reshapes the treated area by means of a double action: compressing and elevating tissue. Second, a gradual and natural regenerating effect: in being absorbed, the component of the suture, polylactic acid, stimulates the natural production of collagen, thus restoring shapeliness to the face. The face is redefined, volume restored and the effects of ageing significantly reduced.

SILHOUETTE SOFT®

Oxygenetix

– the first truly breathable makeup.

Oxygenetix, the new groundbreaking breathable foundation designed for doctors, will conceal and heal a wide variety of skin conditions. It's so good that it has found a home with Hollywood's elite. Used daily from the doctor's office to the red carpet this Hollywood secret actually improves the look of your skin while you wear it.
