

## Nu Beauty

Beauty being skin deep is certainly a thing of the past. Scientists and medical researchers at Nu Skin Enterprises have launched a product that is set to target the source of wrinkles and not just take care of their visible signs. The solution is the Galvanic Spa – a handheld instrument that uses self-adjusting, low-level galvanic currents to deliver ingredients into the skin that revive and rejuvenate it. No more crow's feet and smile lines, just well cared for skin!

**Details:** Device and gels priced from approximately R3 000; tel (0)8600 993 998; information and ordering available via telephone or from website; [nuskin.com](http://nuskin.com)
